3. Navigation version factory radio equipped with Amplifier

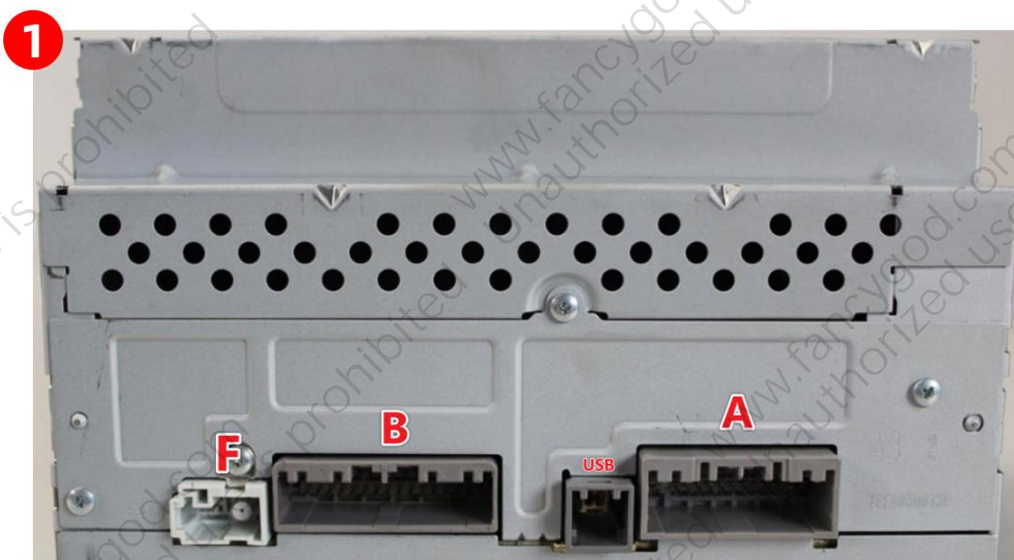

If your factory radio matches the one shown in Image 3, please connect the A, B, C, D, E, G and H connectors from the harness to the corresponding male plugs on the factory radio. The remaining connectors on the harness do not need to be connected.

Additionally, the K cable (Radio module connection cable) must also be connected; otherwise, the radio will not be able to scan for stations.

Tutorial video for connecting the K: radio module connection cable :

1. Standard factory radio

If your factory radio matches the one shown in Image 1, please connect the A, B, and F connectors from the harness to the corresponding male plugs on the factory radio. The remaining connectors on the harness do not need to be connected.

2. Navigation factory radio

If your factory radio matches the one shown in Image 2, please connect the A, B, C, D, E and H connectors from the harness to the corresponding male plugs on the factory radio. The remaining connectors on the harness do not need to be connected.
