USE MANUAL

Car Stereo for Toyota Camry 2012-2014

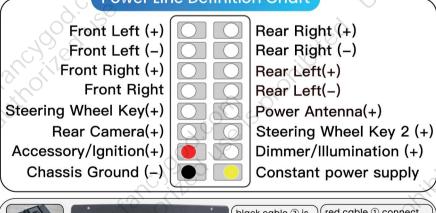

Central Control Disassembly and Operation

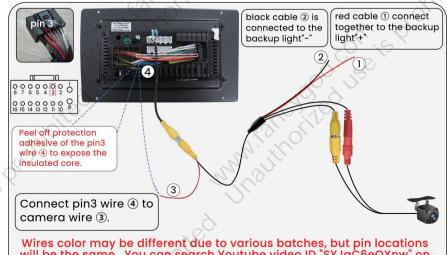

Post-installation rendering

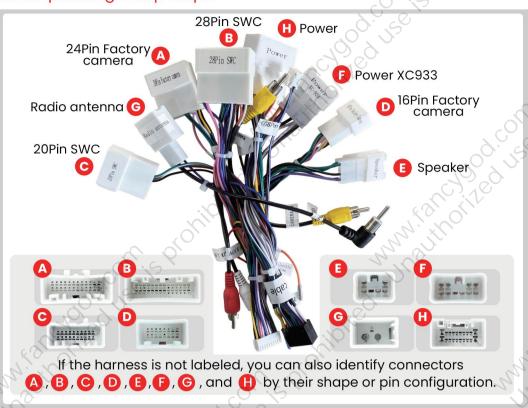

Wires color may be different due to various batches, but pin locations will be the same. You can search Youtube video ID "SYJaC6eQXnw" on Youtube to find our supplied camera connection video tutorial.

For more guidence/video tutorial, please copy this link or scan the QR code to enter into our official website:

Note:Since the D-type cable (XC-933) contains multiple plugs, the required cable varies depending on the factory radio.

To avoid issues such as the radio not powering on due to incorrect cable connections; or the volume not being adjustable, steering wheel controls not functioning, and sound abnormalities due to setting errors, be sure to carefully follow the installation tutorial steps and the corresponding setup steps.

If your factory radio matches Image ①, please connect F, E, B and G harness from the D-cable (XC-933)(The remaining harness do not need to be connected) to the plugs from factory radio, and follow the steps shown in Image2

Please press"Settings" → "Factory Settings" (enter password 3368) → Car Model," and set it to "NULL-OTHER -No Protocol-Null."

If your car has steering wheel control buttons, according to Image ③, please open the SWC app on the radio and refer to the app's instructions to manually learn the steering wheel control keys.

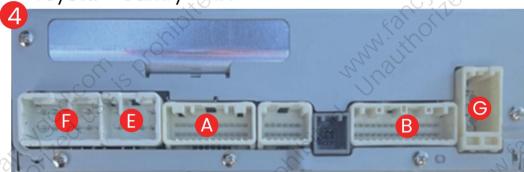

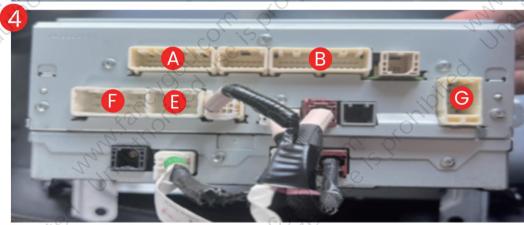

CAN Box type	Car Brand	Car Model	CAN Box
NULL	★ OTHER	No protocol	Null
ZH2		19:10	
HIWORLD			
RZC(Raise)			100/15
XP(Simple)			1000
★ OD			1/10
No protocol	6,	I. C.	0

If your factory radio matches Image 4, please connect F, E, A, B and G harness from the D-cable(XC-933)(The remaining harness do not need to be connected) to the plugs from factory radio, and follow the steps shown in Image 5

Please press "settings" → "Factory Settings" (enter password 3368) → "Car Model," and set it to "XP (simple) – Toyota – Camry – XP."

If your factory radio matches Image (with JBL sound system), please connect H, A, B and G harness from the D-cable (XC-933) (The remaining harness do not need to be connected) to the plugs from factory radio, and follow the steps shown in Image?

Please press "Settings" → "Factory Settings" (input password 3368) → Car Model," and set it to "XP(simple) – Toyota – Camry – AMP."

If sound abnormalities persist after selecting AMP, switch the CAN Box option to "2018.HIGH.AMP."
